SIX WEST

About Us

Six West is the world's largest provider of operational services to the aircraft leasing and airline industries. Providing airline start up and restructure advice and operations support to lessors worldwide, Six West is responsive and predictive, supporting lease transitions, deliveries, demonstrations and distressed recovery.

As the aircraft operator of choice, we are responsive, predictive and committed to adding value at each stage of a flight operation.

Headquartered in Ireland, with a connected, multi-national team, the company has strategically positioned itself to be leading the flight operations requirements of the aircraft leasing industry, globally.

Foreword from Head of Flight Operations, Matthew Gee

"World-class flight operations solutions form the backbone of Six West and are our core service offering to our global clients in the airline and aircraft leasing industries. Over the years, our clients have come to rely on our expertise throughout every phase of an aircraft's transition, be it a delivery, a redelivery a distressed recovery operation or a repossession.

A wholly-owned Irish company, the Six West team is proud of what they do. Working closely with our clients, we ensure they are kept aware of all aircraft movements throughout an entire operation with precision and accuracy.

Each member of the Six West team is passionate about aviation and keeping our clients happy. We place strict emphasis on safety and our ability to stay on top of all the latest regulatory changes has enabled us to keep our promises to our clients, despite the ever-changing nature of today's aviation landscape."

Services We Offer

Our services have been designed to help clients manage aircraft during all phases of transition and can be customised to match your exact requirements. On page 4, you will find a list of the tailored services we offer to our clients.

Our Strategy

Six West applies international best practices to guarantee the safety and quality of its global operations in a multitude of environments. Six West's success is built upon our commitment to:

- 1 safety
- 2 service quality
- 3 efficiency
- 4 asset protection

All our flight operations are covered by a robust, industry-approved Aviation Liability Insurance.

✓
We are experienced, forward-thinking and agile. Essential attributes to keep critical flight operations on track.

✓
We focus on quality over quantity, offering clients personalised services that can adapt to last minute requirements.

✓
We help clients manage all phases of their aircraft transition, exceeding their expectations along the way.
